

# MiniFinder® Watch

User manual

## Package Contents

1 MiniFinder Watch

2 Charging Base

3 USB Charging Cable

4 Wall Charger

## Getting Started – Download the MiniFinder Live App

To begin using your **MiniFinder Watch**, you first need to download the **MiniFinder Live App**.

If you're viewing this guide on your mobile device, simply click the Google Play or App Store icons to go directly to the download page. Alternatively, open the App Store or Google Play, and search for "MiniFinder Live" to install the app manually.

## MiniFinder Live Introduction

Welcome to **MiniFinder Live** – a system designed to provide real-time positioning, smart alerts, and valuable insights to enhance personal safety and independence. Paired with the **MiniFinder Watch**, this platform gives you access to intelligent alarm functions, notifications and useful tools to support your safety and daily routine.

This manual provides step-by-step guidance on how to use MiniFinder Live effectively. Follow the instructions to get started and make the most of your experience.

## App Overview

Once the app is installed, the first step is to create an account. Tap **Sign Up**, then enter your email address and create a password to get started.

Once logged in, you'll be presented with an app overview, which is displayed on the right-hand side.

## Menu

To open the **quick menu**, tap the white MiniFinder button. This gives you fast access to key features like Tags, Geofence, and the Scanner tool.

For additional options, use the **main menu** located in the top left corner of the screen.

By tapping this menu, you can access your profile, devices, contacts, reminders, and more.

## Add a New Device

To add a new device to your account, navigate to the **menu** located in the top left corner of the screen and select **Devices**. From there, tap the **plus sign**. You will now have the option to scan the barcode on the packaging for your MiniFinder to automatically populate the IMEI number. Alternatively, if the packaging isn't available, you can manually input the IMEI number.

Next, you can choose a name for your device, update the profile picture, and select a color. Once you have completed these steps, simply tap **Add device**.

## Choose a subscription

You will now automatically be redirected to the subscription selection page. Choose the subscription plan that best suits your needs and follow the steps to complete the purchase.

## Device List

You can now find your device in the Device List, located under **Devices** in the main menu.

Tap the arrow on the right of your device to expand the drop-down menu, where you can access various options, such as:

- A Show on Map** – View your device's current location
- B Device Settings** – Adjust positioning and alert preferences
- C Profile** – Edit device information
- D Log** – View event history
- E Comments** – Add notes related to the device

These tools help you manage and monitor your device with ease.

## Device Panel

The Device Panel provides valuable insights into your device's location history and movement patterns, giving you a clearer picture of your activity over time.

To access the Device Panel, simply tap your **device's icon** directly on the map. This opens a detailed view with tracking data such as recent routes, timestamps, and other key metrics.

From the panel, you can also:

- A** Share live location
- B** View historical data
- C** Add numbers to call
- D** Set up alerts, such as panic alarm, fall alarm and low battery alarm.

## Device Settings

By tapping **Settings** within the Device Panel, you'll be taken to a dedicated page where you can fine-tune various features and preferences. From adjusting update intervals to configuring alerts and notifications, this section allows you to optimize your device's performance to suit your specific needs.

## Alarm Notifications

To access your alarm notifications, tap the blinking bell icon located in the top right corner of the screen. This section is divided into three categories:

- 1 **Alarms** – Displays critical alerts that require immediate attention
- 2 **Notifications** – Shows general system messages and updates
- 3 **History** – Allows you to view all past alarms and notifications for reference

Within each section, you can choose to dismiss the alarm, view more details, or tap the pin icon to see the exact location of the event on the map.

## Creating a Geofence

To create a geofence, open the **Geofence** option from the quick menu. Choose whether to draw your own geofence using a polygon or a circle.

If you select polygon, mark the desired area by placing and connecting points on the map. Then, select the device you want to link to the geofence and define whether alerts should trigger when the device enters, exits, or both.

Finally, give your geofence a name, choose a color, and **tap Save**.

## Tags

Tags allow you to highlight specific locations on the map that are important for your tracking setup.

To create a tag, select **Tags** in the quick menu and move the pointer to the desired location on the map. Choose the type of tag, add a label, and include any additional information if needed.

Tap **Save**, and the tag will instantly appear on the map.

# Reminder

MiniFinder Live includes a built-in calendar feature to help you stay organized.

To create a reminder, tap the **menu** and select **Reminder**. From here, you can schedule important events such as medication reminders, daily routines, or any other tasks.

Choose the date, set how often the reminder should repeat, and tap **Save**.

Your reminder will now appear in the calendar, helping you keep track of key activities with ease.

## Need More Help?

For support and feature documentation, go to the **Help** section in the main menu. There you'll find step-by-step guides covering key MiniFinder Live functions, designed to help you maximize the platform's capabilities.

## Specifications

Dimensions	47 mm x 42 mm x 15 mm
Weight	38g
Battery Life	48h with 3 minutes interval
Connectivity	LTE/4G (CatM1), GSM
Power Source	5V DC 1.0A
SIM	Preinstalled
Voice call	Yes
Fall sensor	Yes
Screen	1.3" TFT (240 x 240)
